Chairman's Message

Dear Valued Stakeholders,

It is my great pleasure to present to you the performance of your company, Tara Chand Logistic Solutions Ltd for the year 2019-20. The past year was once again a year of many firsts for the company that saw your company expand its presence in the fast growing infrastructures development of the country. The company bagged its first major contracts for Secant Piling job work, Metro Rail Casting Yard management, Transportation and Erection of Viaduct Precast Elements for Metro Rail and Piling Job for Aquaduct construction. In the logistic space, your company was awarded its first Multimodal Transportation contract that involved transportation of steel via road and sea from Vishakhapatnam Steel Plant at Vishakhapatnam on the East Coast to Kochi, Mumbai and Ahmedabad on the West Coast. The year gone by was also the first year that your company paid dividends to its shareholders. The Board of Directors of the Company approved a payment of Interim Equity Dividend of Rs. 0.75/- per share at its meeting held on 20th March 2020.

The Financial Year 2019-20 was another landmark year for your company on the financial front as we continued on our growth path. Your company clocked a Year-on-Year growth of 13.22% in Total Revenue while Profit After Tax (PAT) grew at a whopping 67.79%. The increased PAT was a result of your company's focus on shifting to more profitable revenue streams of Construction Equipment Rentals and Infra projects execution. The company shall continue to further streamline its efforts towards continuous growth in the business while ensuring profitable returns.

The current Government's continued push on infrastructure growth of the country augurs very well for your company. Over the past two years, post our IPO in March 2018, the company has been focused on augmenting its capacities with the addition of suitable construction equipment and commercial vehicles. These efforts started paying rich dividends from the previous year itself as witnessed in the profitability of the company. At present, your company is well poised to expand its share in the ongoing urban infrastructure development projects in Mumbai, Pune, Delhi NCR, Kanpur, Patna, Bangalore, Ahmedabad, Vishakhapatnam, Kochi. Such large infra development across the country is also a major boost for the steel sector and is further adding value to our key business vertical of Warehousing & Transportation wherein your company is engaged in the steel sector serving the likes of Steel Authority of India Limited, Rashtriya Ispat Nigam Limited, Tata Steel, Jindal Steel Works.

Your company's emphasis in capacity expansions have borne fruit with your company bagging many different contracts in the infra development sector for the first time in its history. Your company became the first of its kind organization in its class and segment to provide End-to-End Infra Development solution provider. This has been made possible with the relentless efforts of our teams that have successfully managed to ensure seamless transition of activities from casting of precast viaduct elements at designated casting yard to transporting of the precast elements to construction site to final erection (lifting and placing) of the element at the desired location at site. These inter-related activities constitute the very foundation of the construction of any elevated Metro Rail project or similar flyover/bridge projects. Your Company's enhancement in service offerings has further bolstered its long standing relationships that it already enjoys with its esteemed clients while also creating opportunities for your Company to make inroads into potential marquee clients or projects.

The start of the Financial Year 2020-21 has been marred by the deadly Covid-19 pandemic that has thrown life out of order for one and all. The entire world is still reeling under the impact of the pandemic. However, the silver lining is that the world is waking up to slowly embrace the 'new normal'. At your company, we have utilized this time to reflect on the areas that needed further strengthening and our teams are working towards aligning the systems towards the 'new normal'. It was heartening to witness the zeal and passion of our on-ground teams that put in all possible efforts to ensure timely collation of required information to ensure declaration of our results for the FY2019-20 on 30th April, 2020. We

were indeed the first SME company to declare our results for the previous FY. Although, the site operations across the country were affected drastically during the first two lockdowns, but things started to improve from May as construction activities were given approvals by local authorities. I am pleased to inform you that we are well poised to reach our pre-Covid levels by the start of the second half of the current FY 2020-21. I assure you that your company's entire workforce is committed to the service of its clients and more so to the service of this beautiful Nation with a renewed zeal and passion to ensure achievement of the company's goals.

I, once again, thank all our stakeholders for their trust and belief in us. I look forward for your continued support as the company continues to scale new challenges to deliver consistent growth in revenues and profits.

Warm Regards,

Yours Truly,

Vinay Kumar

MATERIAL IMPACT ON COMPANY DUE TO COVID-19 :

Your Company is engaged in three key verticals: Warehousing & Transportation (primarily of steel products); Equipment Rentals & Infrastructure Development; and Distribution & Processing of Steel Products.

The company's business vertical of Warehousing & Transportation, primarily engaged in the steel sector, continued operations even during the first lockdown as these activities were covered under 'Essential Services' by the Government. This vertical accounts for about 40% of the company's overall turnover. The company has been able to maintain 60% operations since the lockdown was first imposed.

The other key vertical of the company is Construction Equipment Rental and Turnkey Infrastructure Projects, which constitutes about 50% of the company's operations. Your company's services are primarily engaged in construction of bridges and mostly urban metro rail networks. Apart from this, the company is actively working with its infrastructure development clients in development of the irrigation infrastructure of our country. Post the partial opening up of the lockdown from 20th April 2020, company's teams at various client construction sites have started operations while ensuring necessary safety precautions in wake of the Covid 19 pandemic. Company's operations in the cities of Mumbai and Pune have been badly hit where your company was actively engaged in development of the Mumbai Metro Lines 4 and 5 and the Pune Underground Metro. In Mumbai, company's clients have faced a huge exodus of migrant workers from the construction sites and thus supporting site labour had been missing for continued work front for operation of company's deployment equipment. At Pune, company's metro site is under the containment zone and hence work at site is at a total stand still. However, the operations at our other metro sites are in full swing as also the operations at our other major sites in Karnataka, Bihar, Uttar Pradesh, Gujarat, Andhra Pradesh, Punjab. Despite the challenges, company's teams efforts have led to operational output of about 65% in the month of May.

Your company envisage the work to resume at some of company's non-operational sites by end of July. The operations are expected to reach the pre-Covid levels towards the start of the third quarter of this financial year. However, the current situation is very uncertain and further progress shall be updated as and when the situation so demands.

Steps Taken

Since the Covid 19 situation is highly fluid and uncertain, your company has taken certain steps during the various stages of Lockdown 1.0 to 4.0 and Unlock 1.0 to try to ease out the challenges presented by the changing situation:

1. The core team of the company comprising the Managing Director, Executive Directors and Branch Heads have been interacting on every alternate day by way of telephonic/video conference calls to stay updated with the changing situation.
2. The branch heads and the Senior Management have interacted with frontline team members via video conferencing to understand their challenges and help them wherever required. It has been understood from the feedback received post such interactions that the team members are motivated with the direct involvement of the senior management.
3. Prolonged idle condition of machines can lead to malfunctioning of certain components of the machines. Hence, the maintenance team of the company along with branch heads have taken the lead to educate and guide the operating crew at sites to ensure necessary precautions at site. The operating crew regularly visited site to run check-ups on the machines, which ensured smooth re-start at sites where work began during Lockdown 2.0 with stipulated precautions.
4. The Senior Management has further taken the initiative to formulate certain Good Practices that with the objective of motivating the entire workforce of the company. Under these practices, your company has introduced a new award namely 'Shree Vishwakarma Award' to honour the Top 5 Frontline team members from across all branches on a yearly basis. The criteria and procedure have been circulated to all branches for implementation from FY 2019-20 itself. Another Good Practice namely 'AnmolRatna Award' that was initiated by the company three years ago has been revived and has been put into a formal structure. The Management believes that such unique initiatives will be key in taking forward the company during the post Covid19 'new normal' era.
5. Company's Head Office at Chandigarh and branch offices at Navi Mumbai, Bengaluru and Vishakhapatnam resumed operations in a phased manner during Lockdown 4.0 and Unlock 1.0 while ensuring compliance to the directives of State and Central Government directives with necessary precautions/safety measures.

6. Your Company adopted the motto, 'Our Motto Safety in Toto' almost 15 years ago wherein it has been company's endeavour at all levels to ensure safety of men and machinery at all times. Company's commitment to this motto has won the company many accolades from company's esteemed clients over the years. This culture has held company in good stead as company's team has been able to naturally adopt the additional safety guidelines brought about by Covid 19 pandemic. In addition, your company purchased 3-ply masks in bulk from approved sources and distributed to our crew at sites and members at offices.
7. Even before the advent of Covid 19 pandemic, your company had initiated the appropriate use of technology to collate information from all its operating sites and branches to ensure timely collection of operational information leading company to successfully declare audited financial results for the FY 2019-20 on April 30th, 2020. Your company's assets, which are primarily commercial vehicles and construction equipment, were all parked in a safe manner at the onset of the lockdown on 23rd March 2020. Also, the operating crew of these equipment regularly visited the equipment with necessary permissions to keep a check on the safety and working condition of the machines. This has ensured that there has been no impact on assets of the company.

Internal Financial Reporting and Control

Your Company ensured that its pre-Covid era practices of financial reporting and cost controls were kept intact even after the onset of first lockdown and the period thereafter. To further enhance the control measures, review of the cash flow by the Managing Director with the CFO and all Branch Heads is conducted every three days. MANAGEMENT DISCUSSION AND ANALYSIS REPORT**OVERVIEW OF THE LOGISTICS SECTOR**

The market capture of the logistics sector is seen climbing to \$215 billion by 2020, logging 10.5 per cent compounded annual growth rate (CAGR) over 2017.

The logistics sector got the 'infrastructure' status in 2017 when its market size was estimated at \$160 billion. A study by the India Brand Equity Foundation (IBEF) estimates annual investments in the logistics sector to reach \$500 billion by 2025. Between 2018 and 2020, the warehousing segment is poised to receive Rs 50,000 crore investments. In 2017, the logistics sector absorbed 22 million people. Employment is expected to surge to 40 million by 2020.

Traditionally, steep logistics costs are a major concern in India. By the end of 2017-18, logistics expenses accounted for 14 per cent of the GDP. The share is set to decrease to 10 per cent by 2022.

Logistics costs in India exceed those in other countries. The figure is higher compared to 10-11 per cent for BRIC countries and eight to nine per cent for developing nations. USA spends 9.5 per cent of the GDP on logistics while Germany is even more competitive with a share of eight per cent. Higher logistics costs in India could be ascribed to the lack of efficient inter-modal and multi-modal traditional systems.

As of now, the logistics sector is dominated by transportation which has over 85 per cent share in value terms- its share is set to remain high for the next few years. The rest 15 per cent share is borne by storage. The sector is employment intensive, absorbing 22 million people.

Logistics costs have a significant bearing on exports. It is estimated that slashing logistics costs by 10 per cent could widen exports by five to eight per cent.

Currently, the Indian logistics industry is highly fragmented and unorganized. Owing to the presence of numerous unorganised players in the industry, it remains fragmented with the organized players accounting for approximately 10 per cent of the total market share. With the consumer base of the sector encompassing a wide range of industries including retail, automobile, telecom, pharmaceuticals and heavy industries, logistics industry has been increasingly attracting investments in the last decade.

Also, the logistics industry faces challenges such as under-developed material handling infrastructure, fragmented warehousing, multiple regulatory & policy making bodies, lack of seamless movement of goods across modes, minimal integrated IT infrastructure. In order to develop this sector focus on new technology, improved investment, skilling, removing bottlenecks, improving inter-modal transportation, automation, single window system for giving clearances, and simplifying processes would be required.

OVERVIEW OF THE CONSTRUCTION EQUIPMENT INDUSTRY:**ROBUST DEMAND**

1. India is expected to become the world's third largest market by 2022.

India will require investment worth Rs. 50 trillion (US \$ 777.73 billion) across infrastructure by 2022 for a sustainable development in the country.

ATTRACTIVE OPPORTUNITIES

Favourable valuations make the sector an attractive opportunity.

Only 24 percent of the National Highway network in India is four lane, therefore presents an immense scope for improvement.

POLICY SUPPORT

Initiatives like "Housing for all" and "Smart city mission " will drive the growth of the sector.

100 percent FDI is permitted under the automatic route across various infrastructure sectors.

INCREASING INVESTMENTS

Infrastructure sector attracted US\$ 14.7 billion across 74 deals ,accounting for 40percent of the total private equity / venture capital investment in 2019.

Construction development sector and infrastructure activities sector received FDI inflow amounting to US\$ 25.66 billion and US\$ 16.84 billion, respectively, between April 2000 to March 2020.

OPPORTUNITIES

To improve the country's infrastructure and to boost the economy, the Government has taken several steps and your Company is optimistic about availing the same.

- The government has announced Rs. 100-lakh crore for infrastructure over the next five years is welcome as it comes at a time when the industry has built capacity and capability, parts of which have remained under-utilised in the immediate past. The infra spends have been announced in projects that are spread across power, renewables, roads, railways and urban development. This will help create more growth drivers for the industry.
- Energising the Public Private Partnership (PPP) model and taking a re-look at asset re-monetisation can address funding-related constraints. NBFCs will continue to play an important part in financing equipment and, thus, the regulatory framework for their growth is essential.
- Value-added infrastructure, new-age technology, excessive import opportunities and improved trade policies are also large contributors."
- With both government and private bodies heavily investing to boost infrastructure development across the country, the construction equipment industry stands to benefit immensely. This will positively impact the business for construction equipment rental companies and the resale market for these machines.
- We believe that our proactive steps in providing innovative efficient services and solutions to our customers and implementation of our strategies have prepared us for next leg of growth.
- The Company is focused on bringing cost & operational efficiencies to achieve profitable growth in the present competitive business environment. Our endeavor is to lower costs while maintaining quality of service.
- The Company will continue to focus on reducing the working capital levels by emphasis on speedy customer collection.

THREATS

Any change in the government policy or its budgetary allocation towards the infrastructure sector will have an impact on the Company's business. Increasing trade protectionism globally poses the risk of trade war which can curb the economic momentum. The construction equipment industry might have to face an increasing shortage of trained manpower to operate and service these machines.

RISKS AND CONCERNS

The Company's ability to foresee and manage business risks is crucial in achieving favorable results. The Company operates in an environment which is affected by various risks, some of which are identifiable and controllable. Some others are unexpected and cannot be controlled. Under these conditions, proper identification and management of risks is very important in determining the ability of the organization to sustain value creation for its stakeholders. The impact of the key risks, which are potentially significant are listed below have been identified through a formal process by the management. Your Company recognizes that every business has its inherent risks and the Company has been taking proactive approach to identify and mitigate them on a continuous basis.

- **Continued Economic Growth:** Demand of our warehousing, transportation and equipment hiring services is dependent on economic growth and / or infrastructure development. Any slowdown in the economic growth affects our growth.
- **Our Client Base:** The Company depends on its limited marquee clients for a majority of its revenues. This exposes the company to a risk of client concentration. The Company continues to take steps to create a larger client base, while continuing to benefit from the already strong long term association it shares with its current customers.
- **Risks from Competition:** Aggressive focus on infrastructural development has created opportunities and also increased competition in the logistics and equipment hiring businesses.
- **Ability to pass on increasing cost:** Ability to pass on increasing cost in a timely manner depends upon the demand supply situation and competitive activities and there has been a general reluctance as seen in the past, to make significant price hikes.
- **Liquidity Crunch:** The infrastructure development is directly dependent on the availability of capital. With the recent escalating NPAs of the public and private sectors banks, there exists the risk of liquidity crunch for our clients thereby putting a risk to our liquidity.
- **Monsoon:** Infrastructure development, to some extent, runs the risk in case of above normal monsoon. With normal monsoon and infra spending from the government, we expect both the logistics and equipment hiring industries to grow in double digit percentage terms in near future.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The internal control systems provide for well-defined policies, guidelines and authorizations and approval procedures. The Company has imbibed internal control procedures commensurate with operations and capacities. These business procedures ensure optimum use and protection of the resources, to ensure that all assets are safeguarded against loss

from unauthorized use or disposition. . In addition the Company also has an Audit Committee to interact with the Statutory Auditors, Internal Auditors and Management in dealing with matters within its terms of reference. This Committee mainly deals with accounting matters, Financial reporting and internal controls.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.
