# Chairman's M e s s a g e

Dear Valued Stakeholders,

The world has witnessed the most unusual phase of uncertainty and instability over the last two years. Nonetheless, the second half of the Fiscal Year 2021-22 seems to have led our country out from the deadliest times of the Covid 19 pandemic. The Government of India's push for large scale vaccination along with the policy push to improve infrastructure paved the way for India's journey on the path a USD 5 Trillion economy. The second half of the FY 2021-22 saw economic activity picking pace to retrace its steps to the pre-covid era.

In the past financial year the government emphasis on both the infrastructural development as well as large MNCs' efforts to expand industrial expansion gained pace. In FY22, various government initiatives were undertaken such as the National Infrastructure Pipeline, National Monetisation Pipeline, Bharatmala Pariyojana. Also a INR 100 lakh Crore master plan was made for multi-modal connectivity with the goal of developing infrastructure to lower logistic costs. Although the Government's initiatives brought positive cheer across sectors, certain unpredicted events like extended Monsoons, India-China border tensions and the Russia-Ukraine conflict led to volatility in the steel and construction industries. Despite the volatile situations, the construction equipment sector witnessed growth in FY22.

Your company continued its efforts towards efficient execution of the orderbook that the company had established over the previous FY. Your company's contract with Rashtriya Ispat Nigam Limited at its flagship Central Dispatch Yard in Vishakhapatnam took off at the start of the FY. With this contract, your company has become one of the largest steel material handling and logistics solution provider in the company with an operating capacity of 6 Million Tonnes of Steel per annum. Over the last few years, your company has steadily progressed as an infrastructure development solution provider of choice by its clients across the country. The company has successfully progressed into an end-to-end turnkey solutions provider, which differentiates it from its competitors who are primarily just equipment rental companies. FY 21-22 saw your company become the leading agency of choice for execution of bored cast-in-situ piles for the first ever Bullet Train of the country i.e. the Mumbai Ahmedabad High Speed Rail Project. Starting with the first ever working pile of this prestigious project in May 2021, your company raced to 1000 piles installation by the end of the FY22.

The past two Financial Years have been exceptionally difficult not only because of the unique challenges presented, but more so because of the unpredictability of the events that transpired. The company has stood its ground through three Covid-19 waves, with the first two causing a never seen before disruption. If the first quarter of FY2021-22 was marred by the deadly onslaught of the second wave, the second quarter was washed away by prolonged torrential rains that defied most predictions of the Meteorology Department. These unusual tumultuous and unpredictable events led to postponement of projects by our clients, which served as a huge blow to our fleet occupancy targets for HY1 of FY2021-22. Despite the very challenging times, the company's Management remained dogged in its approach to sail through with an approach to remain persistent and consistent with its operational and financial practices. The company's Income from Operations registered a Y-o-Y growth of 16.4%, riding primarily on the positive performance in the latter half of FY 2021-22. However, the below par performance in the first half of the FY caused stress on the operating margins of the company. The Y-o-Y Operating Profit declined by 11.7% while the Operating Margin dropped to 23% from 31% for the corresponding

period. It is very important to note that despite the very challenging times, your company continued its efforts towards financial hygiene and transparency. The company recognized and reversed income of INR 4.39 Crores that was pertaining to previous years. Nevertheless, your company fought off these challenges and made great progress in certain key financial parameters. The company's Non Current Liabilities reduced by INR 22.56 Crores, while the Long Term Borrowings saw a 25% decrease to INR 49.50 Crores as on 31<sup>st</sup> March 2022. The reduction in debt helped boost the Debt/Equity Ratio to 1.50 in FY22 compared to 2.0 in FY21.

Going forward, our entire team at Tara Chand is excited about the plethora of opportunities that have opened up this year. Your company's investments and strategies are well aligned with the Government's push for infrastructure and logistics growth. I assure you that your company's management and entire workforce is steadfastly committed to the service of its clients and more so to the service of this beautiful Nation to ensure achievement of the company's goals. The Financial Year 2022-23 is even more exciting in that your company is set to migrate to the Main Board from the NSE Emerge exchange. I, along with the entire team at Tara Chand, am very excited to continue our growth journey with the support and commitment of our current stakeholders and keenly looking forward to welcoming new shareholders in our journey towards greater heights.

Kindest Regards,

**Vinay Kumar**

## ITEM NO. 7:

The Members of the company informed that, your company is making an average revenue share of 55% from past few years in the segment of Construction Equipment Rentals & Turnkey Infra Projects and the said revenue is increasing on the continuous basis over past 15 years. Hence, considering the growth opportunities and representation of such segment of the Company in the market/industry and on the basis of confirmation on the availability of name by the Ministry of Corporate Affairs, it is proposed to change the name of the Company to "**TARA CHAND INFRALOGISTIC SOLUTIONS LIMITED**".

The Board of Directors of the Company vide their circular resolution dated 2<sup>nd</sup> September, 2022 have decided and approved to make an application to Central Registration Centre ('CRC'), Registrar of Companies ('ROC'), Ministry of Corporate Affairs ('MCA') for name availability certificate for changing the name of the Company from "**TARA CHAND LOGISTIC SOLUTIONS LIMITED**" to the new name "**TARA CHAND INFRALOGISTIC SOLUTIONS LIMITED**". Accordingly, your company had made an application for reservation and availability of name to CRC, ROC, MCA and the desired name i.e. "**TARA CHAND INFRALOGISTIC SOLUTIONS LIMITED**" is made available by them vide their approval letter dated 2<sup>nd</sup> September, 2022.

Consequent to the proposed new name being made available and reserved in favour of the Company, the Board of Directors of the Company in their meeting held on 5<sup>th</sup> September, 2022, approved change in name of the Company from "**TARA CHAND LOGISTIC SOLUTIONS LIMITED**" to the new name "**TARA CHAND INFRALOGISTIC SOLUTIONS LIMITED**" and also approved consequent change in Memorandum of Association ('MoA') and Articles of Association ('AoA') of the Company subject to receipt of approval from Shareholders, Stock Exchanges where equity shares of the Company are listed, Central Government, ROC, MCA and/ or any other regulatory or statutory authority(ies) in connection with the change in name of the Company.

Pursuant to change of name of the Company, the name "Tara Chand Logistic Solutions Limited" as appearing in the Name Clause of the MoA of the Company and wherever appearing in the MoA, AoA, letterheads, hoardings, envelopes, stamps, stationary, business letters, billheads, letter papers, other official publications and other documents and places of the Company would have to be substituted with the new name i.e. "**TARA CHAND INFRALOGISTIC SOLUTIONS LIMITED**".

The Company is in compliance with conditions stipulated under Regulation 45(1) of the Securities and Exchange Board of India (Listing Obligations and Disclosures Requirement) Regulations, 2015, as amended and a certificate pursuant to Regulation 45(3) of the said Regulations, issued by M/s. Sangeet Kumar & Associates, Chartered Accountants (FRN: 011954N), Statutory Auditor of the Company is enclosed as **Annexure- 3** to this Notice.

Pursuant to the applicable provisions of the Companies Act, 2013 and rules made thereunder, for effecting the change in name of the Company and consequential alteration in the MoA and AoA of the Company, it is necessary to obtain approval of the shareholders by way of passing a special resolution. Therefore, the Board considers that the **Special Resolution** set out at **Item no. 7** in this notice is in the best interest of the Company and recommends the said **Special Resolution** for approval of shareholders.

However, the said change in the name of the Company will be effective post receipt of approval from the Registrar of Companies, Ministry of Corporate Affairs, Stock Exchanges and/ or other regulatory authority(ies) and upon receipt of fresh Certificate of Incorporation upon change of name i.e. "**TARA CHAND INFRALOGISTIC SOLUTIONS LIMITED**".

A copy of the existing and proposed MoA and AoA will be available for inspection by the Members of the Company (i) at the Registered Office of the Company during working hours on all working days except Saturdays upto date of AGM 29<sup>th</sup> September, 2022 and (ii) electronically, and any member seeking to inspect, can send an email to cs@tarachandindia.in with subject line "Inspection of Documents".

None of the directors and/or key managerial personnel of the Company and their relatives are in any way, concerned or interested, financial or otherwise, in this Resolution except to the extent of their shareholding in the Company, if any.

On behalf of the Board of Directors

Tara Chand Logistic Solutions Limited

## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

### INDIAN ECONOMY OVERVIEW

Just when uncertainties associated with the COVID-19 pandemic were declining, the Russia-Ukraine crisis escalated. Consequently, India's growth outlook appears to have clouded. Crude oil prices are lingering above US\$100 per barrel, and wheat and cereal prices have gone up several times—all of which are critical imports from the two warring nations. India also partly meets its fertilizer needs from the region. For India, which has been battling inflation for a while now, this situation is making matters worse. Higher fuel and fertilizer prices will reduce government revenues and increase subsidy costs. Furthermore, capital outflows and rising import bills will weigh on the current account balance and currency valuation. Despite the external shocks, India's underlying economic fundamentals are strong and despite the short-term turbulence, the impact on the long-term outlook will be marginal. Growth will be strong from October 2022 onwards. Growth-enhancing policies and schemes, increased infrastructure spending, rising exports, rapid digitization, and spill-over effects of geopolitical developments will likely aid in growth. With economic momentum resuming, and the long-term advantages of supply-side reforms in the works, the Indian economy is poised to grow at a considerable pace. According to IMF's World Economic Outlook (October 2021 edition), India's nominal GDP, measured in nominal USD market exchange rate is estimated at USD 3,515 Bn in 2023 (FY24), accounting for 3.3% of global GDP and making it the sixth largest economy in the world. When measured in purchasing power parity (PPP) terms, India is estimated to be the third largest economy at PPP USD 12,387 Bn in 2023. FY23 is expected to be the first normal year after the onslaught of COVID-19 which virtually eliminated a meaningful increase in economic output during the two-year period up to FY21. India's per capita nominal GDP is estimated to grow by 16% in FY22 to INR 16,95,743 (USD 2,282.34) after suffering a contraction of 2.4% in FY21. ### Infrastructure Sector

Increased impetus to develop infrastructure in the country is attracting both domestic and international players. Private sector is emerging as a key player across various infrastructure segments, ranging from roads and communications to power and airports. In order to boost the construction of buildings in the country, the Government of India has decided to come up with a single window clearance facility to accord speedy approval of construction projects. According to the Department for Promotion of Industry and Internal Trade (DPIIT), FDIs in the construction development sector (townships, housing, built up infrastructure and construction development projects) and construction (infrastructure) activities stood at US\$ 26.20 billion and US\$ 27.92 billion, respectively, between April 2000-March 2022.

### In Union Budget 2022-23:

- The government has given a massive push to the infrastructure sector by allocating Rs. 10 lakh crore (US\$ 130.57 billion) to enhance the infrastructure sector.
- The government allocated Rs. 134,015 crore (US\$ 17.24 billion) to National Highways Authority of India (NHAI).
- The government announced an outlay of Rs. 60,000 crore (US\$ 7.72 billion) for the Ministry of Road Transport and Highways.
- The government announced Rs. 76,549 crore (US\$ 9.85 billion) to the Ministry of Housing and Urban Affairs.
- The government allocated Rs. 84,587 crore (US\$ 10.87 billion) to the Department of Telecommunications to create and augment telecom infrastructure in the country.
- 100 PM-GatiShakti Cargo Terminals for multimodal logistics facilities will be developed over next three years.

In November 2021, the Asian Development Bank (ADB) has approved a US\$ 250-million loan to support development of the National Industrial Corridor Development Programme (NICDP). This is a part of the US\$ 500-million loan to build 11 industrial corridors bridging 17 states. By 2024, the Ministry of Road Transport and Highways aims to build 60,000 kms of world-class national highways at a rate of 40 kms each day.

The future outlook of the infrastructure sector looks on track with pandemic easing out. The infrastructure sector has become the biggest focus area for the Government of India. India plans to spend US\$ 1.4 trillion on infrastructure

during 2019-23 to have a sustainable development of the country. India and Japan have partnered together for infrastructure development in the Northeastern states of India, and are also establishing an India-Japan Coordination Forum for Development of Northeast to carry out important infrastructure projects for the area.

## Steel Sector

As of April 2022, India was the world's second-largest producer of crude steel, with an output of 10.14 MT. In FY22, the production of crude steel and finished steel stood at 133.596 MT and 120.01 MT, respectively. The growth in the Indian steel sector has been driven by the domestic availability of raw materials such as iron ore and cost-effective labour. Consequently, the steel sector has been a major contributor to India's manufacturing output.

The Indian steel industry is modern, with state-of-the-art steel mills. It has always strived for continuous modernisation of older plants and up-gradation to higher energy efficiency levels.

The Indian steel industry is classified into three categories - major producers, main producers and secondary producers.

In FY22, the production of crude steel and finished steel stood at 133.596 MT and 120.01 MT, respectively. The consumption of finished steel stood at 105.751 MT in FY22. In April 2022, India's finished steel consumption stood at 9.072 MT.

In FY22, exports and imports of finished steel stood at 13.49 MT and 4.67 MT, respectively. In FY22, India's export rose by 25.1% YoY, compared with 2021. In FY21, India exported 9.49 MT of finished steel.

The National Steel Policy, 2017 envisage 300 million tonnes of production capacity by 2030-31. The per capita consumption of steel has increased from 57.6 kgs to 74.1 kgs during the last five years. The government has a fixed objective of increasing rural consumption of steel from the current 19.6 kg/per capita to 38 kg/per capita by 2030-31. As per Indian Steel Association (ISA), steel demand will grow by 7.2% in 2019-20 and 2020-21. Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile and railways sectors.

## Oil & Gas Sector

The oil and gas sector is among the eight core industries in India and plays a major role in influencing decision making for all the other important sections of the economy.

India's economic growth is closely related to its energy demand, therefore, the need for oil and gas is projected to grow more, thereby making the sector quite conducive for investment. India retained its spot as the third-largest consumer of oil in the world as of 2021.

The Government has adopted several policies to fulfil the increasing demand. It has allowed 100% Foreign Direct Investment (FDI) in many segments of the sector, including natural gas, petroleum products and refineries, among others. Today, it attracts both domestic and foreign investment as attested by the presence of Reliance Industries Ltd (RIL) and Cairn India.

India's crude oil production in FY22 stood at 29.7 MMT.

According to IEA (India Energy Outlook 2021), primary energy demand is expected to nearly double to 1,123 million tonnes of oil equivalent, as India's gross domestic product (GDP) is expected to increase to US\$ 8.6 trillion by 2040.

India is expected to be one of the largest contributors to non-OECD petroleum consumption growth globally. India's consumption of petrol products stood at 204.23 MMT in FY22. High Speed Diesel was the most consumed oil product in India and accounted for 38.84% of petroleum product consumption in FY22.

According to the International Energy Agency (IEA), consumption of natural gas in India is expected to grow by 25 BCM, registering an average annual growth of 9% until 2024.

Crude oil consumption is expected to grow at a CAGR of 5.14% to 500 million tonnes by FY40 from 202.7 million tonnes in FY22. In terms of barrels, India's oil consumption is forecast to rise from 4.05 MBPD in FY22 to 7.2 MBPD in 2030 and 9.2 MBPD in 2050. Natural Gas consumption is forecast to increase at a CAGR of 12.2% to 550 MCMPD by 2030 from 174 MCMPD in 2021. India is planning to double its refining capacity to 450-500 million tonnes by

2030. Energy demand of India is anticipated to grow faster than energy demand of all major economies on the back of continuous robust economic growth. Moreover, the country's share in global primary energy consumption is projected to increase to two-fold by 2035.

## Cement Sector

India is the second largest producer of cement in the world. It accounts for more than 7% of the global installed capacity. India has a lot of potential for development in the infrastructure and construction sector and the cement sector is expected to largely benefit from it. Some of the recent initiatives, such as development of 98 smart cities, is expected to provide a major boost to the sector.

Aided by suitable Government foreign policies, several foreign players such as Lafarge-Holcim, Heidelberg Cement, and Vicat have invested in the country in the recent past. A significant factor which aids the growth of this sector is the ready availability of raw materials for making cement, such as limestone and coal.

At present, the Installed capacity of cement in India is 500 MTPA with production of 298 MTPA.

The cement demand in India is estimated to touch 419.92 MT by FY 2027. As India has a high quantity and quality of limestone deposits through-out the country, the cement industry promises huge potential for growth.

India's cement production is expected increased at a CAGR of 5.65% between FY16-22, driven by demands in roads, urban infrastructure and commercial real estate. The consumption of cement in India is expected grow to at a CAGR of 5.68% from FY16 to FY22.

As per Crisil Ratings, the Indian cement industry is likely to add ~80 million tonnes (MT) capacity by FY24, the highest since the last 10 years, driven by increasing spending on housing and infrastructure activities.

The eastern states of India are likely to be the newer and untapped markets for cement companies and could contribute to their bottom line in future. In the next 10 years, India could become the main exporter of clinker and gray cement to the Middle East, Africa, and other developing nations of the world.

Cement plants near the ports, for instance the plants in Gujarat and Visakhapatnam, will have an added advantage for export and will logistically be well armed to face stiff competition from cement plants in the interior of the country. India's cement production capacity is expected to reach 550 MT by 2025. A number of foreign players are also expected to enter the cement sector owing to the profit margins and steady demand.

## Railways Sector

India's railway network is recognised as one of the largest railway systems in the world under single management. The railway network is also ideal for long-distance travel and movement of bulk commodities, apart from being an energy efficient and economic mode of conveyance and transport. Indian Railways is the preferred carrier of automobiles in the country.

Government of India has focused on investing in railway infrastructure by making investor-friendly policies. It has moved quickly to enable Foreign Direct Investment (FDI) in railways to improve infrastructure for freight and high-speed trains. At present, several domestic and foreign companies are also looking to invest in Indian rail projects.

Indian Railway network is growing at a healthy rate. In the next five years, Indian railway market is expected to be the third largest, accounting for 10% of the global market. The government has announced two key initiatives for seeking private investments—running passenger trains by private operators across the railways network and redevelopment of railway stations across the country. According to Indian Railways, these projects have the potential of bringing an investment of over US\$ 7.5 billion in the next five years.

'Adarsh' Station Scheme has been started since 2009-10 and presently, railway stations are upgraded/modernised based on identified need of providing better enhanced passenger amenities at stations. Under the scheme, 1253 stations have been identified for development, out of which 1201 stations so far have been developed. The remaining 52 stations are planned to be developed by 2021- 22. Indian Railways is also looking at other areas of revenue generation such as the following: a) Change in composition of coaches so that it can push the more profitable AC coach travel; b) Additional revenue streams by monetising traffic on its digital booking IRCTC; and c) Disinvesting IRCTC. The Indian Railway launched the National Rail Plan, Vision 2024, to accelerate implementation of critical projects, such as multitrack congested routes, achieve 100% electrification, upgrade the speed to 160 kmph on

Delhi-Howrah and Delhi-Mumbai routes, upgrade the speed to 130 kmph on all other golden quadrilateral-golden diagonal (GQ/GD) routes and eliminate all level crossings on the GQ/GD route, by 2024.

## Logistics Sector

In FY 2021, the size of the Indian logistics market was around USD 250 billion. It is estimated that this market would grow to USD 380 billion by 2025, at a CAGR of approximately 11%. The Indian Government's keen focus on building a better road network, dedicated freight corridors, tech-driven warehousing, along with multimodal logistics parks, substantiates the role of logistics in the economic growth of the country. Higher logistics and inventory cost in India could be attributed to a lack of efficient inter-modal and multimodal transportation systems. However, with the launch of significant government initiatives like the 'Gati Shakti' Master Plan for multimodal connectivity, a smooth logistics infrastructure development is expected in the coming years. This plan is also expected to enable faster implementation of the Dedicated Freight Corridors (DFCs). Various Government initiatives such as the National Logistics Policy (NLP), the implementation of GST to streamline taxation, geotagging of warehouses and encouragement to 'IoT' are improving logistics efficiency. In December 2021, the Government abolished Tariff Authority for Major Ports (TAMP). As a result, the new guidelines allow the concessionaires of Public Private Partnership (PPP) projects to set tariffs as per market dynamics, which will help concessionaires become competitive with private players.

With a burgeoning startup ecosystem in the country, new-age digital logistics players are emerging. Quoting, Booking and Tracking, are current core functions being done digitally. In future, we could look at features like Bill of Lading ("BL") error check, e-BL, display of remaining space on vessel, display of congestion at ports, preconfirmation of deliverability, automatic calculations of import duties and taxes, QR coding of documents, on-time display of demurrage costs, etc., going digital as well. These solutions are bringing in significant synergies, efficiencies, and are widening the total available market for entrenched players. The Indian logistics sector is benefitting from strong tailwinds from the rise of D2C (Direct to Consumer), Quick Commerce, Reverse Logistics, etc. The existing logistics players will have to reinvent themselves to cater to these new business models. The omni-channel (online + offline) offerings are coming to the forefront, adapting to a similar set of requirements of customers. With infrastructure push from the Government and adoption of new-age technologies, the logistics sector in India is witnessing a massive overhaul.

## Indian Construction Equipment Industry

India construction equipment market is expected to grow at a CAGR of 8.9% during 2022-2028. The earthmoving segment is the largest in the Indian construction industry, followed by material handling and road construction equipment. Excavators and Backhoe loaders were the fast-growing major construction equipment in the market in 2021.

The demand for excavators and backhoe loaders will rise due to various government investments in infrastructure development, growth in renewable energy and the country's mining industries.

## Key Highlights

- India is the largest market for Backhoe loaders in the world. The equipment is highly flexible, cheaper, and can operate on muddy and uneven surfaces, making it extremely popular in the Indian construction market.
- Various civil engineering works and smart city projects prompt demand for mini excavators in the market. The real estate and affordable housing projects support the demand for large towers and fixed cranes in the Indian market.
- The infrastructure investment in 2021 and the national infrastructure development plan drive the construction industry growth. The government's focus on renewable energy resources for power generation will attract significant FDI inflows in 2021.
- The surge in commodities prices and rise in demand for coal and iron ore in the market supports the country's mining industry growth. And government initiatives of Make in India & Aatmanirbar Bharat encourage the development of manufacturing sectors.

- The surge in infrastructure development projects across India such as Delhi-Mumbai Trade Corridor (\$90 billion), Gujarat International Finance Tec-City (\$20 billion), Chennai Metro Rail (\$14.9 billion) and Diamond Quadrilateral (\$13 billion). The Indian Railway infrastructure will see an investment of \$715.4 billion by 2030. The Indian energy sector is expected to offer an investment opportunity by \$300 billion over the next 10 years. In 2020-2021, the communication sector had allocated \$5.36 billion to develop the post and telecommunications departments.
- Real estate sector in India is expected to reach \$1 trillion by 2030. As per the projected growth trends during the pre-COVID-19 era, the sector's contribution was likely to rise to 13% of India's GDP by 2025. As per ICRA estimates, Indian firms are expected to raise \$48 billion through infrastructure and real estate investment trusts in 2022.

## Opportunities & Threats

Your Company is primarily engaged in serving the infrastructural development and industrial capacity expansion needs of India through its key activities: **Warehousing & Multi-modal Transportation, Construction Equipment Rental and Turnkey Infra-Project Execution**. With over **35 years** of experience, your company is among the leading Steel Warehousing & Transportation organizations in India with execution of more than 6 Million Tonnes of Steel per annum. The company is an IBA Approved Transporter. Your company has a substantial contribution in the completed and ongoing construction of the first ever High Speed Bullet Train of India and various Metro Lines in the country viz-a-viz Agra, Ahmedabad, Bhopal, Bangalore, Chennai, Delhi, Hyderabad, Kanpur, Lucknow, Mumbai, Nagpur, Pune and Surat. Our dedicated team of experts and our young well-maintained fleet of equipment serves across various sectors like Power, Oil & Gas, Steel, Cement, Renewable Energy, Railways and Urban & Rural Infrastructure (Roads, Bridges, Highways, Airports, Metros, Irrigation Projects and Water Pipelines). Your Company's extensive presence and network across India ensures a very timely and efficient delivery of services to our clients. The company is fully geared up to meet the upcoming rise in demand in the next fiscal.

The Indian economy is well poised to continue its rapid growth across sectors as per various domestic and international reports. The positivity has fuelled a spree of commitments of new investments across sectors like Oil & Gas, Cement, Steel and Infrastructure development that will lead to an increase in demand for logistic and equipment rental services.

Our logistic services dedicated to the steel sector amounts for about 45% of your company's revenues. Your company has introduced innovative solutions to enhance operational efficiency in its steel warehousing and handling operations. The Company's 50% of the revenue stream is from its infrastructure development solutions that are executed through the company's large fleet of equipment. The Company has concentrated its assets to focus on solutions aligned to our customers' growing needs.

## Threats

The ever-present volatility represents a considerable threat to our result of operations. The Company's operations could also be affected owing to development of newer policies by the different State Governments of the country. The changing needs of customers makes it difficult to ensure availability of the right equipment as per the market demand. The Company's activities may get affected by increase in competition and by a stretched receivables cycle.

## Outlook

India's success and economic growth in the near future is heavily dependent on the evolution of the Indian logistics sector. This is essential not only for generating employment or providing broad social benefits to farmers and low-income workers but also for competing with the rest of the world in terms of last-mile connectivity, efficient transportation, time of delivery, etc. Further, economy enhancing initiatives such as GST implementation and other key initiatives such as Make in India, Digital India and soon to be released National Logistics Policy, all hold a promise for an efficient and integrated logistics industry in the days ahead. With the government promising to increase its spending on infrastructure, focus on new and improved economic corridors, and road and railway infrastructure, the Indian economy is set to see a surge in growth and demand in the years ahead.

## Risks and concerns

Lack of uniformity when it comes to rules and regulations across the country often poses a challenge for the logistics companies. Limited availability of skilled manpower in the logistics industry have resulted in lower efficiency level and reduces output considerably.

The company's ability to foresee and manage business risks is crucial in achieving favorable results. The company operates in an environment which is affected by various risks, some of which are identifiable and controllable. Some others are unexpected and cannot be controlled. Under these conditions, proper identification and management of risks is very important in determining the ability of the organization to sustain value creation for its stakeholders. The impact of the key risks, which are potentially significant are listed below have been identified through a formal process by the management. Your company recognizes that every business has its inherent risks and the company has been taking proactive approach to identify and mitigate them on a continuous basis.

- continued economic growth: demand of our warehousing, transportation and equipment hiring services is dependent on economic growth and / or infrastructure development. Any slowdown in the economic growth affects our growth.
- our client base: the company depends on its limited marquee clients for a majority of its revenues. This exposes the company to a risk of client concentration. The company continues to take steps to create a larger client base, while continuing to benefit from the already strong long term association it shares with its current customers.
- risks from competition: aggressive focus on infrastructural development has created opportunities and also increased competition in the logistics and equipment hiring businesses.
- ability to pass on increasing cost: ability to pass on increasing cost in a timely manner depends upon the demand supply situation and competitive activities and there has been a general reluctance as seen in the past, to make significant price hikes.
- liquidity crunch: the infrastructure development is directly dependent on the availability of capital. With the recent escalating npas of the public and private sectors banks, there exists the risk of liquidity crunch for our clients thereby putting a risk to our liquidity.
- monsoon: infrastructure development, to some extent, runs the risk in case of above normal monsoon. With normal monsoon and infra spending from the government, we expect both the logistics and equipment hiring industries to grow in double digit percentage terms in near future.

### Internal control systems and their adequacy

The inherent strength in our business model ensures that the Company is not dependent on any particular customer or industry for its revenues.

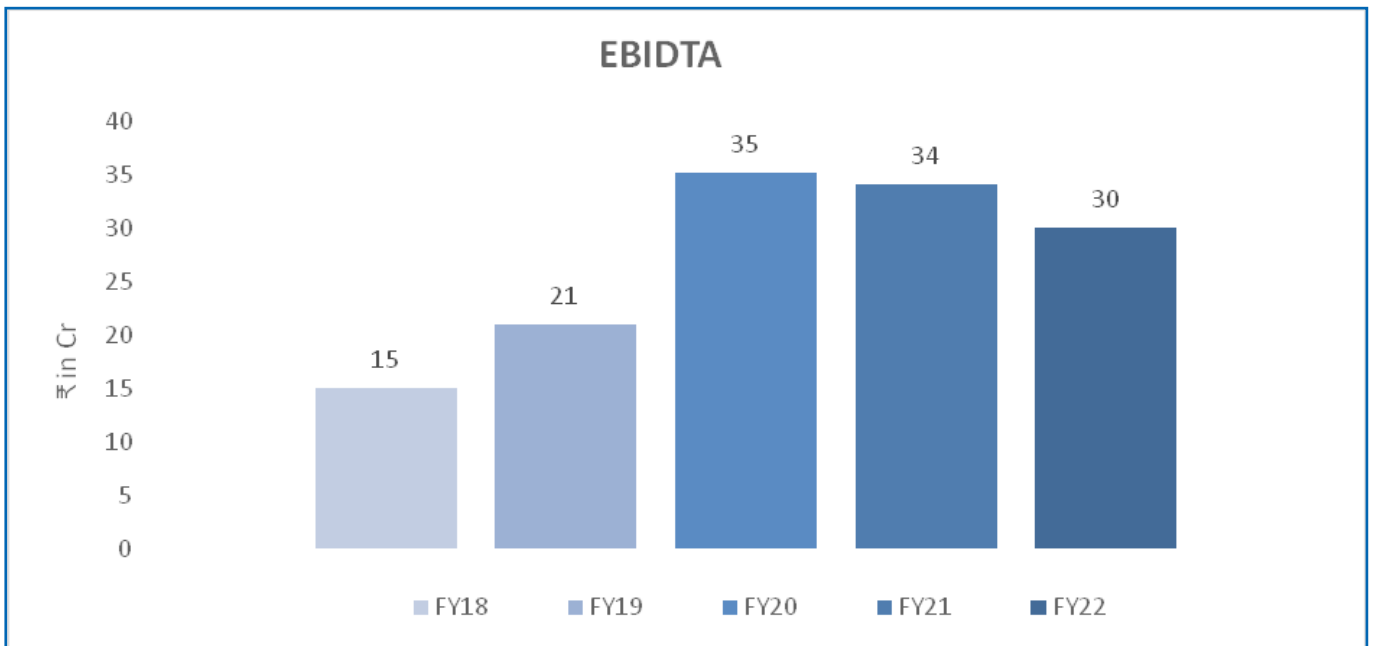

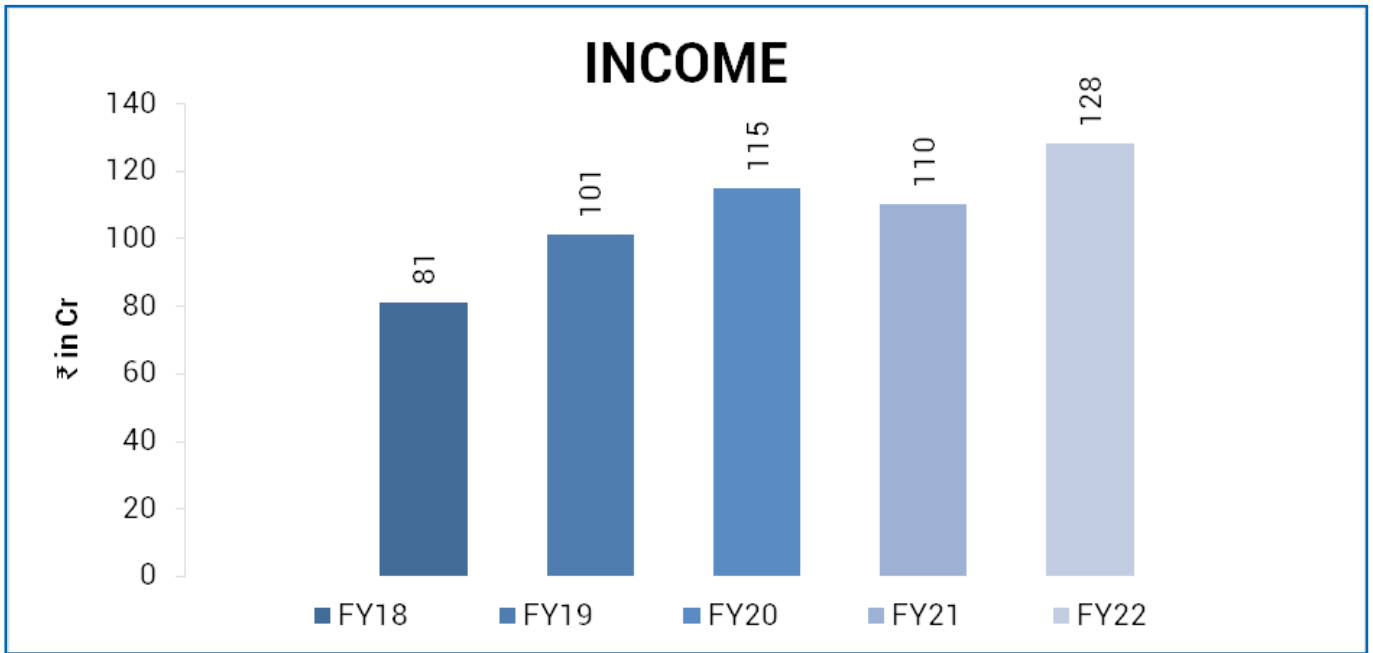

The Company has an Internal Control System, commensurate with the size, scale and the nature of its operations. The Internal Control function emanates at the Board level and its scope and authority of the Internal Audit function is well defined. To maintain objectivity and independence, the Internal Audit function reports to the Chairman of the Audit Committee of the Board & to the executive Chairman and the Managing Director. The Internal Audit Department monitors and evaluates the efficacy and adequacy of internal control system in the Company, its compliance with operating systems, accounting procedures and policies across the Company. Based on the report of internal audit function, process owners undertake remedial action in their respective areas and thereby strengthen the controls. Significant audit observations and recommendations along with corrective actions thereon are presented to the Audit Committee of the Board. As regards the operation of internal controls, majority of these have been inbuilt in the internal procedures established by the organization which are also documented internally. These include in details the methodology to be adopted right from transacting bookings, effecting consignment deliveries, etc. and also describes the practices to be followed for the smooth operation of business.

The Company had laid down guidelines, policies, procedures and structure to enable implementation of appropriate internal financial controls across the company. These control processes enable and ensure the orderly and efficient conduct of company's business, including safeguarding of assets, prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and timely preparation & disclosure of financial statements. There are control processes both on manual and IT applications including ERP applications, wherein the transactions were approved and recorded. Review and control mechanisms are built in to ensure that such control systems are adequate and operating effectively.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design,

implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## Report on Other Legal and Regulatory Requirements

## **ANNEXURE 'B'**

### **Report on Internal Financial Controls with reference to financial statements**

#### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of M/s Tara Chand Logistic Solutions Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

## Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## Note – 1- Notes to the Financial Statement & Summary of Significant Accounting Policies

### I. HISTORY:-

TARA CHAND LOGISTIC SOLUTIONS LIMITED is a unique integrated facility established in year February, 2012 and is engaged in providing cargo handling and logistic services. Its equity shares are listed in India on National Stock Exchange (NSE). The Company has complied with the Accounting Standards as applicable to such a Company.

### II. ACCOUNTING POLICIES:-

#### (i) Basis of preparation of financial statements:-

The financial statements of the Company have been prepared in accordance with Generally Accepted Accounting Principles in India. The Company has prepared these financial statements to comply in all material respects with the Accounting Standards notified by Companies (Accounting Standards) Rules, 2006, (as amended), the relevant provisions of the Companies Act, 2013. The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

#### (ii) Basis of Accounting:-

Transactions are recorded on accrual basis of accounting. Accrual Accounting allows for revenue to be recognized when earned and expenses to be recognized when Goods or Services are received.

#### (iii) Use of Estimates:-

The preparation of financial statements requires certain estimates & assumptions to be made that effect the reported amount of assets/liabilities as on the date of financial statement and the reported amounts of revenues and expenses during the reporting period. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognized in the periods in which the results are known/ materialized.

#### (iv) Revenue Recognition:-

Revenue is recognized only when it can be reliably measured and it is reasonable to expect ultimate collection. Revenue from operations includes provision of services. Revenue from operations also includes profit/loss on sale of equipments, because it is in ordinary course of business to dispose-off the obsolete equipments and to replace them with the new equipments.

#### (v) Fixed Assets:-

Fixed assets are stated at cost net of cenvat & less accumulated depreciation. The cost of fixed assets includes interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use and other incidental expenses incurred up to that date. Expenditure relating to fixed assets is capitalized only if such expenditure results in an increase in the future benefits.

#### (vi) Impairment of Assets:

An asset is treated as impaired when the carrying cost of asset exceeds its Recoverable Amount.

Recoverable Amount is higher of an asset's Net selling price or its Value in Use. Value in Use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Net Selling Price is the amount obtainable from the sale of an asset in an arms length transaction between knowledgeable, willing parties, less the cost of disposal.

An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired.

#### (vii) Depreciation:-

Depreciation on tangible fixed assets and intangible assets is provided on the Written Down value method as per the rates prescribed under Part 'C' of Schedule II of the Companies Act, 2013 which is also as per the useful life of the assets estimated as prescribed under Part 'C' of Schedule II of the Companies Act, 2013. But, useful life of some Equipments/Cranes is taken as 20 years as confirmed by OEM.

**(viii) Borrowing Cost:-**

Borrowing costs attributable to the acquisition or construction of qualifying asset are capitalized as a part of cost of such asset up to the date when such asset is ready for its intended use. All other borrowing costs are charged to revenue.

**(ix) Inventories:-**

Items of inventories are valued at cost or NRV whichever is less. Cost of inventories include cost of purchase, cost of conversion & other costs incurred in bringing them to their respective present location & condition, including octroi and other levies, transit insurance and receiving charges.

**(x) Foreign Currency Transactions**

- i. All transactions in foreign currency are recognized at the exchange rate prevailing on the date of the transaction.
- ii. Foreign currency monetary items are reported using the exchange rate prevailing at the close of the financial year.

Exchange differences arising on the settlement of monetary items or on the restatement of Company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise. Foreign currency fluctuation related with capital expenditure has been capitalized with the related asset.

**(xi) Employee Benefit:-**

PROVIDENT FUND & E.S.I.- Retirement benefit in the form of PF & ESI is a defined contribution scheme & the contributions are charged to Profit & Loss account of the year when the contributions to the fund are paid/due. There is no other obligation other than the contributions to be remitted to Provident Fund and E.S.I Authorities. Further during the FY 2021-22, Provision for Gratuity is made on the basis of valuation report given by the Actuarial.

**(xii) Segment Reporting:-**

As the company engaged in three segments i.e. Transport & handling Services, Equipment Rental Services and Steel Processing & Distribution. So, the segment-wise financials is prepared in accordance with Accounting Standards 17 on Segment Reporting.

**(xiii) Claims:-**

In accordance with the consistent practice, insurance and other claims, to the extent considered recoverable, are accounted for in the year relevant to claim while the balance is accounted for on settlement.

**(xiv) Income Tax**

Current Income Tax liability is provided for in accordance with provisions of the Income Tax Act, 1961.
